### *Fabulous Fridays*

#### **In Harmony...**

##### ***Ducky Shincracker***

Embodying the spirit of early American folk, and jazz music, Ducky Shincracker is the prototypical born and bred All-American musician. As a banjo player and vocalist, he is steeped in the traditions of musicians such as Eddie Peabody, and Louis Armstrong while simultaneously looking forward to contemporaries like Jim Kweskin, Bob Dylan, and Pokey LaFarge. Ducky's sound is broad and inclusive, combining elements of New Orleans and Tin Pan Alley jazz, as well as Grand Ole Opry-era country, and Jug Band songs of the 1910s, and 20s. Whether you're a musician, dancer or just enjoying some time with friends and family, Ducky Shincracker has something for you.

#### **Last Friday: *Won't You Be My Neighbor?***

"Won't you be my neighbor?" Anyone who watched *Mr. Rogers' Neighborhood* on PBS during the last three decades of the 1900's will remember this line from his opening song. Director Morgen Neville has used it as the title of a documentary about Rogers and the influence his program had on children. In an interview with Bill Goodykoontz of the *Arizona Republic*, Neville says: "Fred was talking about fundamental human issues that not only go back to Shakespeare and literature, they go back to the Bible...This is a voice that I don't hear in our culture today and really needs to be part of the conversation." Rogers was an ordained Presbyterian minister who was appalled at the quality of children's programming in the early years of TV: all pie in the face and clowns. His show appeared on a community TV station in Pittsburgh and when a brittle film reel broke during one broadcast, he grabbed a puppet on the set and the make-believe world of Daniel Tiger and Henrietta Pussycat was born. *Won't You Be My Neighbor?* features interviews with the adults who populated the show including this from David Newell who played Mr. McFeely: "Fred was radical. He felt the feelings of the child were as important as the feelings of the adult." Rogers wrote the songs on the show and voiced

all the puppets. His family said he used the voice of King Friday XIII at home to show authority. An interesting note, the film reveals the Rogers' relative who was the model for the cantankerous Lady Elaine Fairchild. One of the film's riveting scenes shows Rogers at a 1969 congressional hearing about funding for public TV. Senator John Pastore, clearly tired of the discussion and against the funding, listens as Rogers repeats the words of his song *What Do You Do with the Mad?* You can watch the Senator's face as he changes his mind and supports the funding. As Calvin Wilson of the *St. Louis Post-Dispatch* writes: "At a time when tolerance and compassion often seem to be under siege, *Won't You Be My Neighbor?* reminds us that the softest voices often have the strongest impact." 1:34. Rated PG-13 for some thematic elements and language.

**LIBRARIES  
TRANSFORM®**

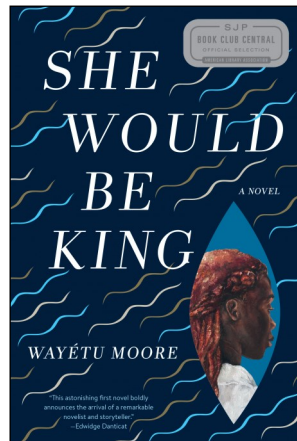

"It's a privilege to announce *She Would Be King* by Wayétu Moore as the new selection for Book Club Central. This novel dazzles with beauty and transcendent, transformative humanity. Through the stories of Gbessa,

June Dey, and Norman Aragon, Wayétu Moore illuminates what it means to be *of* and *from* places that are both far-away and inescapably familiar. I treasured every moment I spent in the pages of this book, and I'm thrilled to be able share it with all of you." Sarah Jessica Parker.

"Moore's stunning debut novel is a magic-realism tour de force taking readers on a journey through the beginnings of Liberia. Gbessa, a girl shunned as a witch by her own Vai people who later comes to terms with her immortality, is a heroine cast in the mold of legendary women. June Dey, with his extraordinary strength and almost supernatural origins, becomes a metaphorical representation of the journey of former slaves who moved from plantations in the American South to the newly created settlement of Monrovia. And then there is Norman Aragon, of mixed race, who fulfills his mother's deep desire to move to the free state from Jamaica, even as he comes to terms with his own power to disappear. Moore trusts her readers to follow complex characters and breathtaking plot twists as she brings together the story of what all of them leave behind and where they come together to create a brave new world. There is an aching sweetness to Moore's writing that effectively captures the dichotomous and vulnerable strength of her protagonists and catapults this into the realm of books that cast a long-lingering spell."

This is the story of hundreds of young, vibrant women who were sentenced to death by their employers. The so-called "Radium Girls" painted luminescent faces on clock and watch dials using a paint mixture that contained radium. Instructed to "lip-point" their brushes as they painted, they absorbed high doses of radium into their bodies. When the effects of the radium led to horrific disfigurement and pain, the company refused to take responsibility.
